Dean – can you put the hot issues that you developed into this format. Just a call for Ohio issues right now but there is usually a short turn around.

Linda mentioned on Tuesday's management team meeting to use the regular hot issue format (attached). Her Ohio request did not mention any other format to use.

Is there a special format?

**Importance:** High

Cathy and Kurt just scheduled a trip to Ohio on 2/13 to meet with the new Ohio EPA Director and Anthony said today at RA checkin that hot issues for OH are due by this Monday at 2pm. Please send them to me by 10am Monday, since Jori is off on Mondays.
